

## Testimonial, Andrew Smith: Saltburn Minigolf

*"We first met Jon from Urban Crazy in 2013 and since then they have been extremely supportive in our project. From those first discussions the team have delivered us a minigolf course that completely exceeds our expectations... they have literally brought our vision to life. The hard-working and very skilled construction team even completed the job ahead of schedule despite the typical North East winter.*

*The result is fantastic and fits seamlessly with the local surroundings. I would definitely recommend UrbanCrazy for any minigolf-related projects and we would not hesitate to use them again in the future."*
